Introduction

How to use the SME guide

What is Covered?

- Best Practices
- KPI Information
- Cost Information
- How to get started

What Will you Gain?

- Information on using email for business practices
- How to structure basic email campaigns
- Information on analyzing performance for future use

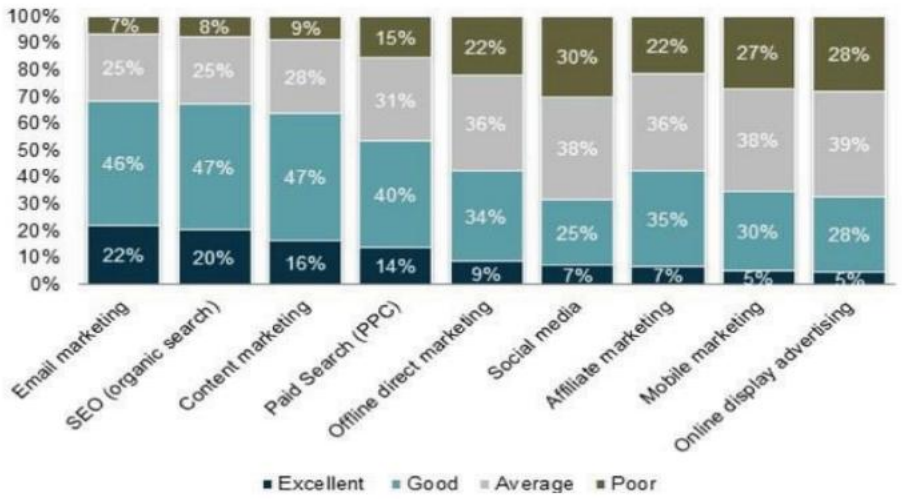

Fig. 1. Statistics of marketing channels from the perspective of ROI [3]

What is Email Marketing?

- What Is Email?
- American Marketing Association definition:
  - “a form of digital marketing that refers to the use of email to attract, engage, and communicate with potential and existing customers”
- Benefits:
  - Direct channel to the target audience, better control of your audience, personalization, measurable success, cost effective

How Does Email Marketing Work?

From Subscribers to Campaign Results

1. Build an Opt-In Email List

- Collect addresses through website signups, purchases, and loyalty programs
- Focus on subscribers who want or expect to hear from the business

2. Segment & Personalize

- Group customers by demographics, interests, behavior, or past purcahses
- Tailor email content and offers to make messages more relevant

3. Create, Send & Automate

- Use a clear subject line, valuable content, and a call to action (CTA)
- Schedule campaigns or trigger welcome and abandoned-cart emails

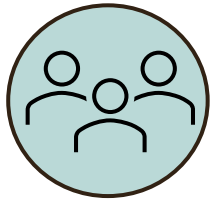

4. Measure & Improve

- Track deliveries, opens, clicks, and conversions after sending
- Use the results to test and refine future email campaigns

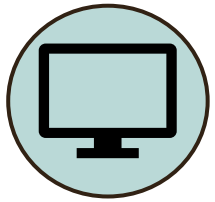

Getting Started with Email Marketing

Initial Steps

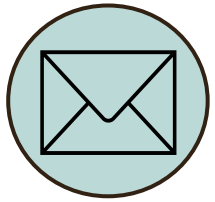

1. Identify Target Audience & Goals

- Who are you trying to reach?
- Demographics, interests, and buying behaviors
- Set measurable marketing goals (e.g. grow email list, improve engagement, etc.)

2. Choose an Email Marketing Platform

- Look for key features that fit company needs
    - Examples: Automation, personalization, and segmentation, analytics, A/B testing, and integrations, Moblie friendly templates, etc.

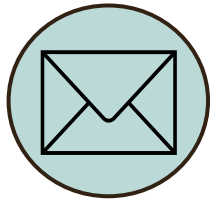

3. Build Your Email List

- Focus on quality subscribers
- Ways to gain subscribers (discounts, sign-up forms, social media)
- Avoid purchasing email lists

Getting Started with Email Marketing

Creating & Improving Email Campaigns

1. Design Effective Emails

- Mobile-friendly and easy to read
- Consistent branding & clear call-to-action (CTA)

2. Establish a Sending Schedule

- Send consistently
- Provide relevant content

3. Test & Measure Performance

- A/B testing: subject lines, send times, and design
- Track results & use them to improve future campaigns

Email Marketing KPIs

Measuring Campaign Performance

Reach & Engagement

Delivery & Bounce Rates

Do emails reach recipients or fail to deliver?

Delivered or Bounced / Emails Sent

Open Rate

Does the email gain the recipient's attention?

Emails Opened / Emails Delivered

CTR & CTOR

Do recipients engage with links and CTAs?

Unique Clicks / Delivered or Unique Opens

Conversions & Value

Conversion Rate

Do recipients complete the desired action?

Conversions / Recipients or Clicks

Unsubscribe Rate

Are subscribers choosing to leave the list?

Unsubscribes / Emails Delivered

Return on Investment (ROI)

Does campaign revenue justify its cost?

(Revenue - Campaign Cost) / Campaign Cost

All formulas × 100 for percentages. Analyze KPIs together to find where customers drop off.

Program Costs

Pricing Models & Additional Expenses

Program costs vary depending on the platform, size of the business's email list, & the features it needs

Common Pricing Models

- **Contact-Based**: Cost increases with subscriber count
- **Flat-Rate:** Fixed fee, sometimes with usage limits
- **CPM**: Cost per 1,000 emails sent

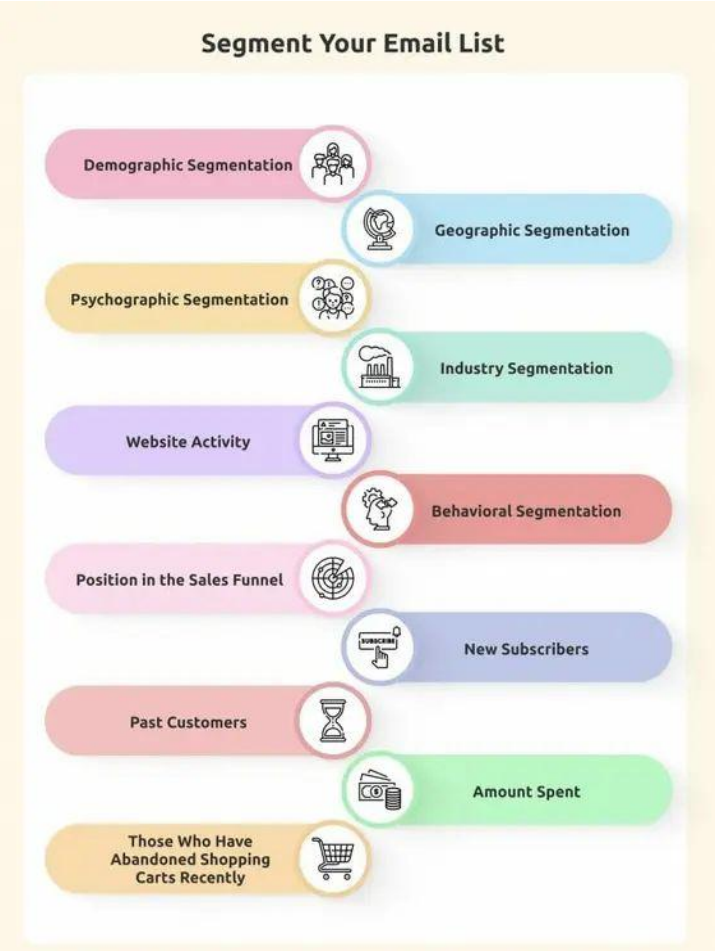

Factors Affecting Costs

- List size and sending volume
- Advanced features, users, and support
- Additional fees and contract terms

Optimization & Next Steps

Optimization

- **Segmentation:** Divide subscribers into groups based on psychographics, demographics, or behaviors
- **Lifecycle marketing:** Target customers based on where they are in the customer cycle
- **Personalization:** Using names, product recommendations, abandoned cart reminders, etc.
- **Benefits:** More relevant emails, higher engagement, and increased conversions.
- **Assess KPIs:** Open Rate, Click-Through Rate, Conversion Rate, Unsubscribe Rate

Optimization & Next Steps

Optimization

- Mobile Optimization
  - Use readable fonts and responsive layouts
  - Include clear CTA buttons
  - Compress images for faster loading
  - Test emails across devices before sending
- A/B Testing
  - Test subject lines, email copy, CTAs, and send times
  - Change one element at a time
  - Compare results to determine what works best

Optimization & Next Steps

Next Steps

- Days 1–30: Establish
  - Review past performance and set KPIs
  - Organize email segments
  - Ensure emails are mobile-friendly
- Days 31–60: Experiment
  - Begin A/B testing
  - Develop lifecycle email campaigns
  - Add personalized content
- Days 61–90: Improve
  - Analyze performance data
  - Adjust targeting and content
  - Repeat successful strategies
